

YEAR-END TAX PLANNING MOVES FOR INDIVIDUALS

Postpone Income Until 2021

Postpone income until 2021 and accelerate deductions into 2020 if doing so will enable you to claim larger deductions, credits, and other tax breaks for 2020 that are phased out over varying levels of adjusted gross income (AGI). These include deductible IRA contributions, child tax credits, higher education tax credits, and deductions for student loan interest. Postponing income also is desirable for taxpayers who anticipate being in a lower tax bracket next year due to changed financial circumstances. Note, however, that in some cases, it may pay to actually accelerate income into 2020. For example, that may be the case for a person who will have a more favorable filing status this year than next (e.g., head of household versus individual filing status), or who expects to be in a higher tax bracket next year.
